

CVA-10K

Check Valve Assembly

The CVA-10K Check Valve Assembly is designed as an inline high pressure check valve for surface and subsurface environments.

Specifications

Connection: 3/8" Tubing Inlet, 3/8" Tubing Outlet

Size: 1" Round

Length: 6.8"

Flow: 5 Gpm @ 250 Psig

Crack Pressure: 25 Psig

MAOP: 10,000 Psig

Materials: 316 SS Viton® & Teflon®

Other Alloys & Elastomers Available

Springs: Inconel X750

Features

Integral Tubing Connections

10,000 Psig MAOP

Ball Type Check Valve

Inconel Check Spring

Made in the USA
