

HPF-3000

High Pressure Filter

HPF-3000 Replacement
Filter Element - 25 Micron

HPF-3000 Replacement
Filter Element - 100 Mesh

Designed to meet and exceed the demands of today's industrial applications. Constructed completely of 316 SS, it can withstand a wide variety of harsh environments and applications. In addition to chemical resistance, the HPF-3000 has also been specifically designed for applications that demand ease in serviceability, long life, and pressures ranging from 0-5000 psi.

Specifications

Connection: 1/4" FNPT Inlet and Outlet

Size: O.D. 2.50"

Length: 6.25"

MAOP: 5000 Psig

Flow: 3GPM @ 100 Psig

Materials: All 316 SS Construction

Element: 100 Mesh or 25 Micron

Features

Large Capacity Bowl

Welded Reinforced Element Construction

Viton® and Teflon® Seals

Cleanable or Replaceable Element

Made in the USA

Design Advantage

SIZE

- Light Weight and Compact

FILTER ELEMENT

- Easily Removable
- Cleanable
- Replaceable
- Self-Centering
- All 316 SS

CANISTER

- Inline Mounting Design
- High Pressure Rating
- All 316 SS
